

Gas Safety in Cellars - Checklist

TIS 9 : 2002

Think Gas Safety in the Cellar - only ever purchase beverages dispense gas products from reputable gas suppliers.

High-pressure gas cylinders used to supply gases for drinks dispense are designed and manufactured to ensure they are safe if filled, used and handled correctly. Cylinders that are not filled in accordance with the gas industry safety and quality standards are potentially dangerous and should not be accepted.

Please use the checklist below to identify cylinders that are safe to use. An answer NO to any of these check items may indicate that the cylinder may be unsafe to use and should not be accepted.

		YES	NO
1	Are the cylinder contents clearly identified on the cylinder?	<input type="checkbox"/>	<input type="checkbox"/>
2	Does the cylinder carry a product safety label?	<input type="checkbox"/>	<input type="checkbox"/>
3	Does the cylinder have a valve guard fitted?	<input type="checkbox"/>	<input type="checkbox"/>
4	Is the product traceability label visible?	<input type="checkbox"/>	<input type="checkbox"/>
5	Is there a current coloured plastic test date ring between the valve and the cylinder?	<input type="checkbox"/>	<input type="checkbox"/>
6	Have you been supplied with separate product safety data sheets?	<input type="checkbox"/>	<input type="checkbox"/>
7	Is the cylinder valve sealed when delivered?	<input type="checkbox"/>	<input type="checkbox"/>
8	Does the cylinder look in good condition?		
	No excessive rust	<input type="checkbox"/>	<input type="checkbox"/>
	No dents	<input type="checkbox"/>	<input type="checkbox"/>
	No gouges	<input type="checkbox"/>	<input type="checkbox"/>
	Defaced in anyway	<input type="checkbox"/>	<input type="checkbox"/>
